

DERMACLIP® NON-INVASIVE SKIN CLOSURE, REGULAR CLIPS (62001 / 62002)

Product Description

The DermaClip® Skin Closure Device is a needle-free, non-invasive alternative to sutures, staples and glues. Proven both operationally and clinically, the DermaClip device allows the provider to make a repeatable, quality closure, often in less than a minute, even under adverse conditions. Use of the device is simple and can be learned in minutes.

Compact and lightweight – a box (containing 12 individual pkgs) providing 12" (2-Clip Pkg) to 36" (5-Clip pkg) of closure lasting 7+ days, weighs only 2.3 oz and fits anywhere. The DermaClip device is usable on all types of skin and can hold high tension wounds. DermaClip devices provide the go-to, easy-to-use device for wound closure in the field or in the clinic.

Benefits & Attributes

- **Fast & Strong:** Close wounds in less than a minute
- **Simple & Safe:** Mastered in minutes, no needles, easy removal
- **Multi-Functional:** For temporary or final closure
- **Versatile:** Usable on straight, jagged or curving wounds
- **Stackable:** Use multiple packages for wounds of any length
- **Tactile:** Safely apply in low visibility with tactile feedback
- **Force Multiplier:** Helps keep warfighter on the battlefield
- **72-Hour Sustainability:** Lasts 7+ days
- **All Roles of Care:** Works for wound care in ROC 1, ROC 2, & ROC 3
- **Fits Anywhere:** Compact, only 0.13 oz/pkg; 2.3 oz/12 pkg box
