

NEEDLE FREE & NON-INVASIVE
CLOSE WOUNDS IN SECONDS
AT-HOME REMOVAL OPTION

Used by top emergency medicine & urgent care providers across the US to reduce the time and trauma of laceration repair:

- **Quick to apply** – eliminates need for suture kit and possibly lidocaine / LET.
- **Save time, increase throughput** – see more patients; treat in triage; reduce wait time.
- **Provides optimal true skin closure** – even on fragile and damaged skin.
- **Increase Patient Satisfaction** – supports efficient patient discharge, no needles.

DermaClip devices **simplify the process of skin closure**:

- **Mastered in minutes** to deliver **repeatable quality closures**.
- **Eliminates needle trauma** and the **burning sensation of glues**.
- **Easily removed at home** if permitted by provider.
- **No “railroad track” scarring**, enhanced wound healing & scar reduction

“A great wound closure solution for younger patients with a fear of needles.”

Head Laceration | Closure Series

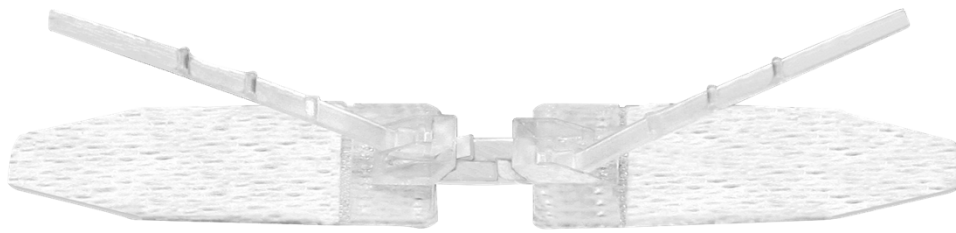

79-year-old | Anticoagulated, Bleeding for 24 Hours | Closed @ Home Visit

Non-Invasive Skin Closure

A Superior Patient Care Solution

DermaClip®

Non-Latex

Non-Sensitizing

NO NEEDLES

NO PUNCTURES

NO MESS

DermaClip turns a skill into a process to save time & maximize revenue:

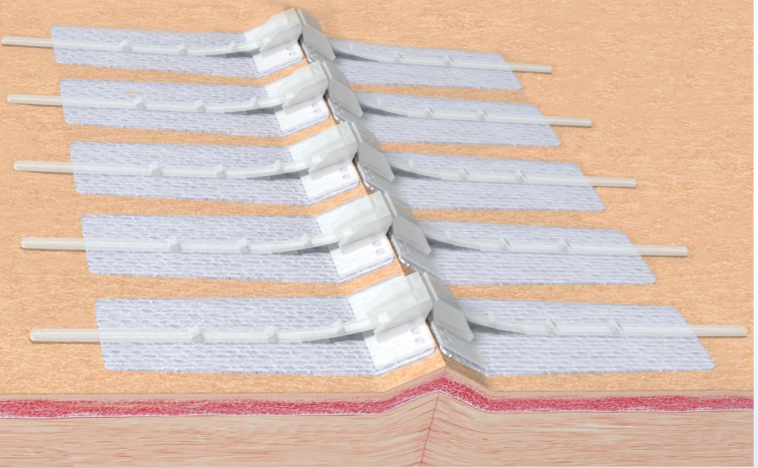

- ***Designed to create a quality closure every time*** – providing consistency.
- ***Streamlines provider's time*** – increasing valuable staff efficiency.
- ***Save money & drive revenue*** – shorter procedures leads to increased capacity.

A versatile solution for all types of wounds:

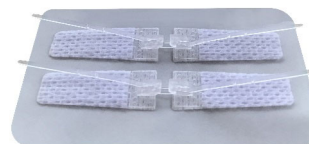

- ***Patient variety*** – used for Pediatrics, Geriatrics, Sensitive Skin, all types of patients.
- ***Reduce patient fear*** – no needles means less anxiety for patients.
- ***Wound variations*** – utilized on wounds from the face to the foot.

DermaClip is designed to ***maintain wound edge approximation*** and ***create wound edge eversion***.

- ***Designed to dispense tension***
- ***Tension-free eversion is the "GOLD STANDARD" of wound closure¹***

Two Sizes for Flexibility & Four Packaging Options
